

## **Illinois Department of Transportation**

*Danville Main Street (US 136) from Pine Street to Collett Street*

March 9, 2006

For the Week of March 12 to 18, 2006

Work will begin on the storm sewer main at the Stone Arch Bridge, just east of Collett Street on Monday, March 13<sup>th</sup>.

Work will start in the roadway on March 15<sup>th</sup>, in the eastbound lanes.

After that work will settle into the center turn lane and proceed west to the Norfolk Southern Railroad. The storm sewer construction is expected to reach the railroad crossing on April 10<sup>th</sup>.

At times, the center turn lane will be closed at intersections. This will result in a side street closure, for left turning vehicles.

Buchanan Street is expected to be closed on Monday March 20<sup>th</sup> to left turning vehicles and grain trucks. There will be a trench in the center turn lane for the storm sewer. Cross traffic will not be permitted.

Please use extreme caution when driving in the work zone this week. There will be new lane closures and this may cause congestion in the area. Please obey the 20 mph speed limit in the construction zone.

For your safety, please stay out of work areas.

Please be aware that Danville Mass Transit might alter bus routes. Please contact them for more information.
